## Which Options to Add

Select the option(s) you would like to add to this section. Keep in mind, some options are not available if the above "Show Section Sidebar" option is set to Yes. If you check the Carousel, Widget Row or Masonry boxes and no additional fields show, set ""Show Section Sidebar" to No.

Note: you can add all available options in one section, but it is usually better to have one layout per section. However, too many sections can be more difficult to manage.
